DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 11/12/03 has been entered.

Claim Rejections - 35 USC § 103

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

3. Claims 7, 9 and 11-14 are rejected under 35 U.S.C. 103(a) as being unpatentable over Schutze 5689109 in view of either Watanabe 6317258 or Kino 5022743.

The limitations of these claims are met by the references as discussed previously. Regarding the newly added limitations, Schutze teaches in col. 6 lines 56-57 and col. 7 lines 27-43 that movement of the objective in the z-direction is independent of the movement of the optical tweezers and/or treatment beam in

the z-direction. Thus, in Schutze's device the beam focus position is controllable and the objective is capable of movement in a direction opposite to that of the tweezers/treatment beam. Accordingly, Schutze's device meets the newly added limitations since his structure is capable of performing the claimed function.
